Con el nombre del río que comparte región con nuestra fábrica, el río Ara nace en el norte y recorre un largo camino que nutre y da vida allá por donde pasa.

Igual que el río, nuestra empresa sabe la importancia de incentivar la economía local. Por ello los productos de MZ del Río están fabricados, diseñados y montados en Zaragoza, España en las instalaciones situadas en el polígono Empresarium.

También conocemos la importancia del agua como un bien que es necesario conservar, por ello nuestros productos tienen sistemas y componentes los cuales se encargan de reducir el consumo de agua y energía sin perder el confort.

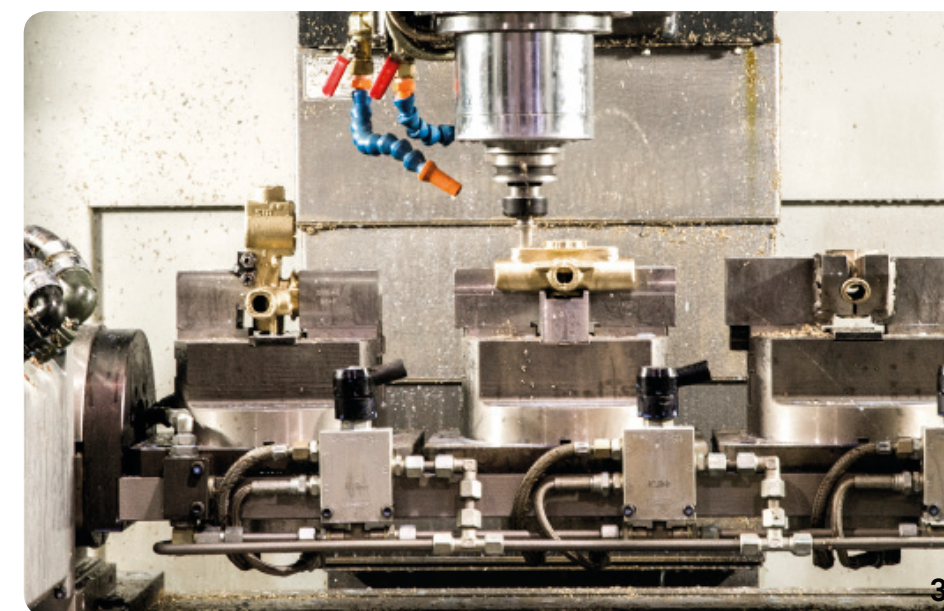

Así mismo trabajamos con materiales, como el latón de origen europeo de alta calidad, que nos permiten fabricar productos duraderos en el tiempo y que cuidan tu salud.

With the name of the river that shares the region with our factory, the Ara River rises in the north and runs a long way that nourishes and gives life wherever it passes.

Just like the river, our company knows the importance of stimulating the local economy. That is why MZ del Río products are manufactured, designed and assembled in Zaragoza, Spain in the facilities located in the Empresarium industrial park.

We also know the importance of water as a good that is necessary to conserve, so our products have systems and components which are responsible for reducing water and energy consumption without losing comfort.

We also work with materials, such as high quality brass of European origin, which allow us to manufacture products that last over time and take care of your health.
